

Extra Heavy-Duty Rams 55-Gallon Containers

Heavy-duty Ram - Features 5-1/2" diameter post construction capable of delivering 0-11 psi* follower down force. This extra measure of down force makes the 651612 Ram the best choice for the hard-duty supply of heavy inks, RTV silicones, caulking, varnishes, highly viscous adhesives and much more.

* **WARNING:** Before using maximum follower down force, check container or consult container manufacturer for maximum pressure rating.

651612-X

Model:	Follower:	Plate Style:	Container:	Pump Size:	Coating:	Wiper Type:	Wiper Material
651612-1	66516	Flat	55-Gallon	Small	None	Double Lip	Nitrile
651612-2	66516-1	Flat	55-Gallon	Small	None	Double Lip	Polyurethane
651612-3	66516-2	Flat	55-Gallon	Small	None	Double Lip	EPR
651612-4	66517	Flat	55-Gallon	Large	None	Double Lip	Nitrile
651612-5	66517-1	Flat	55-Gallon	Large	None	Double Lip	Polyurethane
651612-6	66517-2	Flat	55-Gallon	Large	None	Double Lip	EPR
651612-7	66517-2	Flat	55-Gallon	Large	None	Double Lip	EPR

Single Post Rams

Single Post Ram / Lift - Provides responsive pump lifting and pump lowering – with sufficient downforce to permit pump extrusion of materials up to 500,000 c.p.s. It's ability to revolve 360-degrees allows the ongoing placement and rotation of three, 55-Gallon containers – a critical feature in applications that demand continuous material supply.

Model Number	Fits ARO Pump	Height Raised	Height Lowered	Air Inlet
651614-1	4-1/4"-6" Air Motors	110"	63"	1/4" NPT
651614-2	8" to 12" Air Motors	110"	63"	1/4" NPT
651614-3	Small Hydraulic Motor	110"	63"	1/4" NPT
651614-4	Large Hydraulic Motor	110"	63"	1/4" NPT

The above models include the brackets and hardware needed to accommodate two-ball or extrusion tie-rod style pumps.
